EXPERIENCIA PROFESIONAL

Software Engineer en FRIDAY Insurance | Berlin, Alemania | 2022-2025

Ingeniero Frontend enfocado en el mantenimiento y mejora de dos aplicaciones React utilizando Next.js, Redux Toolkit, TypeScript y CSS. Aseguré la calidad a través de pruebas unitarias, de interfaz de usuario y de extremo a extremo con Playwright, utilizando MSW para la gestión de mocks en las pruebas. Colaboré estrechamente con diseñadores y equipos de producto para crear y mejorar la experiencia de usuario (UX), aportando ideas y definiendo la ruta de implementación.

Software Engineer at Eventbrite (Remote) | San Francisco, California | 2021-2022

Responsible for empowering users to create events through advanced frontend solutions, utilizing modern technologies such as React, TypeScript, and Redux. Implemented various React and Redux practices, focusing on maintainable and scalable code. Applied TDD principles with Jest and React Testing Library to enhance code quality. Estimated new development timelines and mentored junior developers in their technical growth.

Software Engineer Frontend at CamonApp | Argentina | 2020-2021

Developed views and interfaces to enhance monitoring of user experiences using React, Redux, and Context. Integrated backend services built in AWS with Express and provided feedback to designers to refine user experience in new feature development.

Frontend Developer at Inclusion Cloud | Argentina | 2016-2020

Responsible for creating views and interfaces for various clients to address business needs using modern frontend technologies. Utilized SAP as a backend, working specifically with SAP Cloud Platform (SCP), Fiori, UI5, and JavaScript to develop responsive, real-time interfaces. Additionally, developed React applications with end-to-end testing to ensure high application quality.

EDUCATION

I.U.T Dr. Federico Rivero Palacio | 2010-2016

I.T Engineering

CERTIFICATES

AWS Technical Essentials (Oct 2021), SAP Certified Development Associate (Apr 2018), NodeJS From 0 to Expert (Dec 2019), React + Redux + ES6 (Feb 2020), React the Complete Guide: +15 Apps (MERN, Hooks, Context) (Oct 2021), React Testing Library and Jest (Sep 2021), TypeScript (Udemy).

OTHER TECNOLOGIES USED

Testing: Playwright, Selenium, Cypress, React testing library, Jest.

CSS Frameworks: Bootstrap, Tailwind CSS, Chakra.

Backend: Kotlin for E2E tests, SQL, NodeJS.

Agile methodologies: Scrum
